

# BIANCO DAMAR MARBLE

## Technical Data Sheet

Bianco Damar is well known in the Turkish Marmara Island. For ages, the bright and speckled marble with its distinct veining was used across great European and Mediterranean empires. Marmara gets its name from the Greek, which roughly translates to "sparkling stone."

SOURCE: Turkey

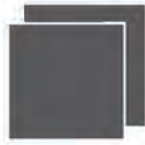

### Applications

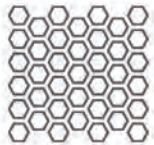

Arch. Elements

Moldings

Tile

Mosaics

### Considerations

Freeze Thaw

Salt Water

Low Variation

High Traffic

### Technical Data

ASTM 97 Density	ASTM 97 Absorption	ASTM C170 Compressive Strength	ASTM C880 Flexural Strength	ASTM 353 Abrasion Resistance
2.71 lbs/ft <sup>3</sup>	0.1%	70.4 psi	15.9 psi	26.4

#### Care and Maintenance:

- High acid sensitivity is a property of marble. Care must be taken in the presence of acidic foods and cleaning products.
- Low abrasion resistance is inherent in most marbles. Light scratching will occur with exposure to abrasives. A patina will result over time. It is recommended to use mats at entrances in flooring applications.
- This marble has a low to moderate absorption rate. It is recommended to seal this material prior to use. Sealers allow for additional time to "clean up" the spill, before it has time to result in a stain.
