

STATUARIO COLORADO MARBLE

Technical Data Sheet

Similar to Calacatta, Statuario Colorado yields a grey-white marble with golden and dark veining throughout.

SOURCE: North America

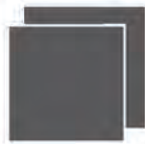

Applications

Arch. Elements

Moldings

Tile

Considerations

Freeze Thaw

Salt Water

Low Variation

High Traffic

Technical Data

ASTM 97 Density	ASTM 97 Absorption	ASTM C170 Compressive Strength	ASTM C880 Flexural Strength	ASTM 353 Abrasion Resistance
NA	0.1%	57.15 MPa	8.71 MPa	12.48

Care and Maintenance:

- High acid sensitivity is a property of marble. Care must be taken in the presence of acidic foods and cleaning products.
- Low abrasion resistance is inherent in most marbles. Light scratching will occur with exposure to abrasives. A patina will result over time. It is recommended to use mats at entrances in flooring applications.
- This marble has a low to moderate absorption rate. It is recommended to seal this material prior to use. Sealers allow for additional time to "clean up" the spill, before it has time to result in a stain.
